The purpose shown during these exhibitions from Mr Mohr is to bring art directly to people, and many people are visiting CITTI GROSS MARKT EACH DAY. And they can enjoy an unusual event.

Franco Costa among other exhibitions showed his work from June to September 2003, at the very prestigious GALLERY LOUSIANA in Humblebaek (Denmark), together with his French gallery, and is going to show his art work, starting in October this year, at "IL VITTORIANO" (a very prestigious museum in Rome) organized by TODINI & TODINI (Via Capo le Case 59-60, 000187 Roma, telephone number: +39 06 6790314).

With his motto, ARTE VITA, Franco wants to express his love for art, but also for people, making young people aware of an alternative to violence, bombs, terrorism. Trying to work for PEACE, his children, Daniela, Eleonora, Sebastian, Sammy and Carlotta, helped and will help their father in his idealistic hopes that the world will turn better, that the good young people will take over and do a better job than us.
